

Welcome to my world
**Its nice to see
 you**

SKILLS

These are some of my skills i had learned so far. But i am still
 because
 learning is the process which never ends!!

C, C++

Well we all know the importance of C and C++
 although its very old but it is still in use which
 implies its importance

Html, Css, Js

It is the basic building block of Web
 Development every person should know the
 basics of html, css, and js

Python

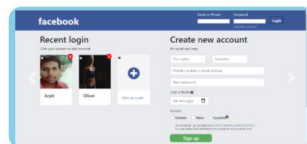

Python is nowadays one of the most popular
 programming language used in many fields like
 web D., coding, ML, Data Science and lots n lots
 of more such fields

And Much More

Some Pics Of My templates

Thses are the photos of some of my templates i had made in
 learning process

My Experiences

I had done some internship before you can check Credentials in
 Portfolio page

Way2assignments

Its a 30 days work from home Internship as Buisness
 Development intern its a great experience as it was my
 first internship

StartUp Inc

Iti is also a 30 days work from home Internship as
 Front-end developer intern and its my second
 internship and i learn a lot from this i am very grateful
 for their support.

Wating for the next

I am eagerly waiting for the next internship because i
 belive in skills and experience

Welcome to my world Its nice to see you
